3. Barriers to Coordination

Medicaid non-emergency transportation services are no longer coordinated through Florida’s Coordinated Transportation System in Bradford County. In May 2014, the Florida Agency for Health Care Administration implemented Florida’s Managed Medical Care Program. The Managed Medical Care Program requires Managed Medical Assistance Plans to provide transportation to their enrollees who have no other means of transportation available.

The Managed Medical Assistance Plans provide transportation services directly through their own network of transportation providers. According Chapter 2 of the Florida Agency for Health Care Administration Transportation Coverage, Limitations and Reimbursement Handbook, July 1997, “Medicaid is required by Chapter 427, Florida Statutes to purchase transportation services through the designated Community Transportation Coordinator, unless those services are not cost effective or the Community Transportation Coordinator does not coordinate Medicaid transportation services.”

Other barriers to the coordination of transportation services in Bradford County include the following:

- low density, rural population limits the ability to multi-load vehicles while maintaining an acceptable level of service; and
- limited availability of medical services/facilities in Bradford County requires out-of-county trips.
