MTPO STAFF RECOMMENDATION

Develop recommendations for the scoping plans for the three interim projects.

BACKGROUND

Alachua County is currently preparing a Project Development and Environmental Study for SW 62nd Boulevard (from Archer Road to Newberry Road). This Study is being funded using the federal SAFETEA-LU High Priority Funds (also called "earmark funds").

This project includes the three interim projects that are shown in Exhibit 1. For a full color presentation of the project scoping, refer to the following website:

Project Description

Interim Projects SW 62nd Boulevard Connector

Archer Road at Southwest 40th Boulevard

Construction of an eastbound to northbound left-turn lane in the median of Archer Road to maximize the storage and efficiency of this movement to bypass queues that may form in the eastbound through lanes. Construction of a southbound right turn lane on Southwest 40th Boulevard. Construction of a receiving lane along Southwest 40th Boulevard in the northbound direction from the proposed double left turn from Archer Road. The project is anticipated to include the design of roadway, sidewalks, stormwater conveyance and management facilities and traffic signals.

Southwest 20th Avenue at Southwest 43rd Street

Construction of a northbound to eastbound right-turn lane on Southwest 43rd Street to maximize the storage and efficiency of this movement. This lane will allow the two existing lanes on the south approach to this intersection to be converted to left-turn lanes. Construction of a receiving lane along Southwest 20th Avenue in the westbound direction from the proposed double left turn from Southwest 43rd Street. The project is anticipated to include the design of roadway, sidewalks, stormwater conveyance and management facilities and traffic signals.

Smart Bus Bay on Southwest 20th Avenue

Construction of a bus turnout and mid-block pedestrian crossing that will include pedestrian countdown signal and detection areas in the merge lane for the bus turnout to activate the pedestrian signal when needed to achieve an acceptable gap for merging. This project is anticipated to include the design of roadway, sidewalks, stormwater conveyance and management facilities, traffic signals/ITS and a bus shelter.

RE: Scope of Services and Schedule for SW 20th Avenue
Financial Management # 211335-3-21-01

Dear Ms. Nguyen:

The Florida Department of Transportation will continue the corridor study on SW 20th Avenue from SW 43rd Street to SW 34th Street. The study will document existing roadway, traffic, and multimodal conditions.

A Multimodal Corridor Report will be produced with a recommended typical section. The report will incorporate turn lanes, missing sidewalks, raised median, bus bays, median openings, and transit super stops (smart bus bays). Close coordination with Regional Transit System, Alachua County Public Works, and the Metropolitan Transportation Planning Organization (MTPO) will be utilized during the study.

The study will build upon the *Urban Village: Southwest 20th Avenue Transportation Design Proposal* prepared by The University of Florida School of Architecture. The study will adhere to the standards published in the *MTPO Urban Design Policy Manual* and the *AASHTO Policy on Geometric Design of Highways and Streets*.

CALL TO ORDER

Chair Emery Swearingen, City of Gainesville Public Works Engineer, called the meeting to order at 1:34 p.m.

I. INTRODUCTIONS

Chair Swearingen introduced himself and requested introductions.

II. AGENDA APPROVAL

Chair Swearingen requested action on the meeting agenda.

Ms. Ha Nguyen, Alachua County Design & Contract Manager, requested that agenda item IV. Main Street Design Plans- N. 8th Avenue to N. 16th Avenue be deleted. She noted that the County does not have all the cost estimates for items included in the MTPO recommendations.
