The Gainesville City Commission and the Alachua County Commission sitting together as the Metropolitan Transportation Planning Organization for the Gainesville Urbanized Area are conducting an update of the Long Range Transportation Plan for the Gainesville Urbanized Area. At this workshop, we will present the adopted Year 2040 Needs Plan and estimated revenue forecasts for State Highway System, Federal Transportation Alternatives Program and Federal Surface Transportation Program projects. This is an opportunity for us to receive your input regarding projects to be funded in the Cost Feasible Plan that will be adopted in October 2015.
