## INTRODUCTION

Each Spring, the Metropolitan Transportation Planning Organization (MTPO) for the Gainesville Urbanized Area approves a five-year program for transportation system modification projects to be funded with federal, state and local funds. This five-year program is referred to as the “Transportation Improvement Program (TIP).”

The process that is used to develop the TIP is described in Illustration I. As shown in this illustration, the TIP has the following three phases:

- Summer- MTPO approves priority lists for projects it wants Florida Department of Transportation (FDOT) to fund;
- Late Fall- FDOT reports to the MTPO what projects it proposes to fund; and
- Spring- MTPO decides which federally-funded projects to approve.

## PURPOSE

This report develops a list of needed, but unfunded, transportation projects. The projects listed later in this report are determined by the MTPO to be necessary to effectively implement the adopted long range transportation plan. Projects selected for funding will be incorporated into the MTPO’s Fiscal Years 2008/2009 - 2012/2013 TIP.

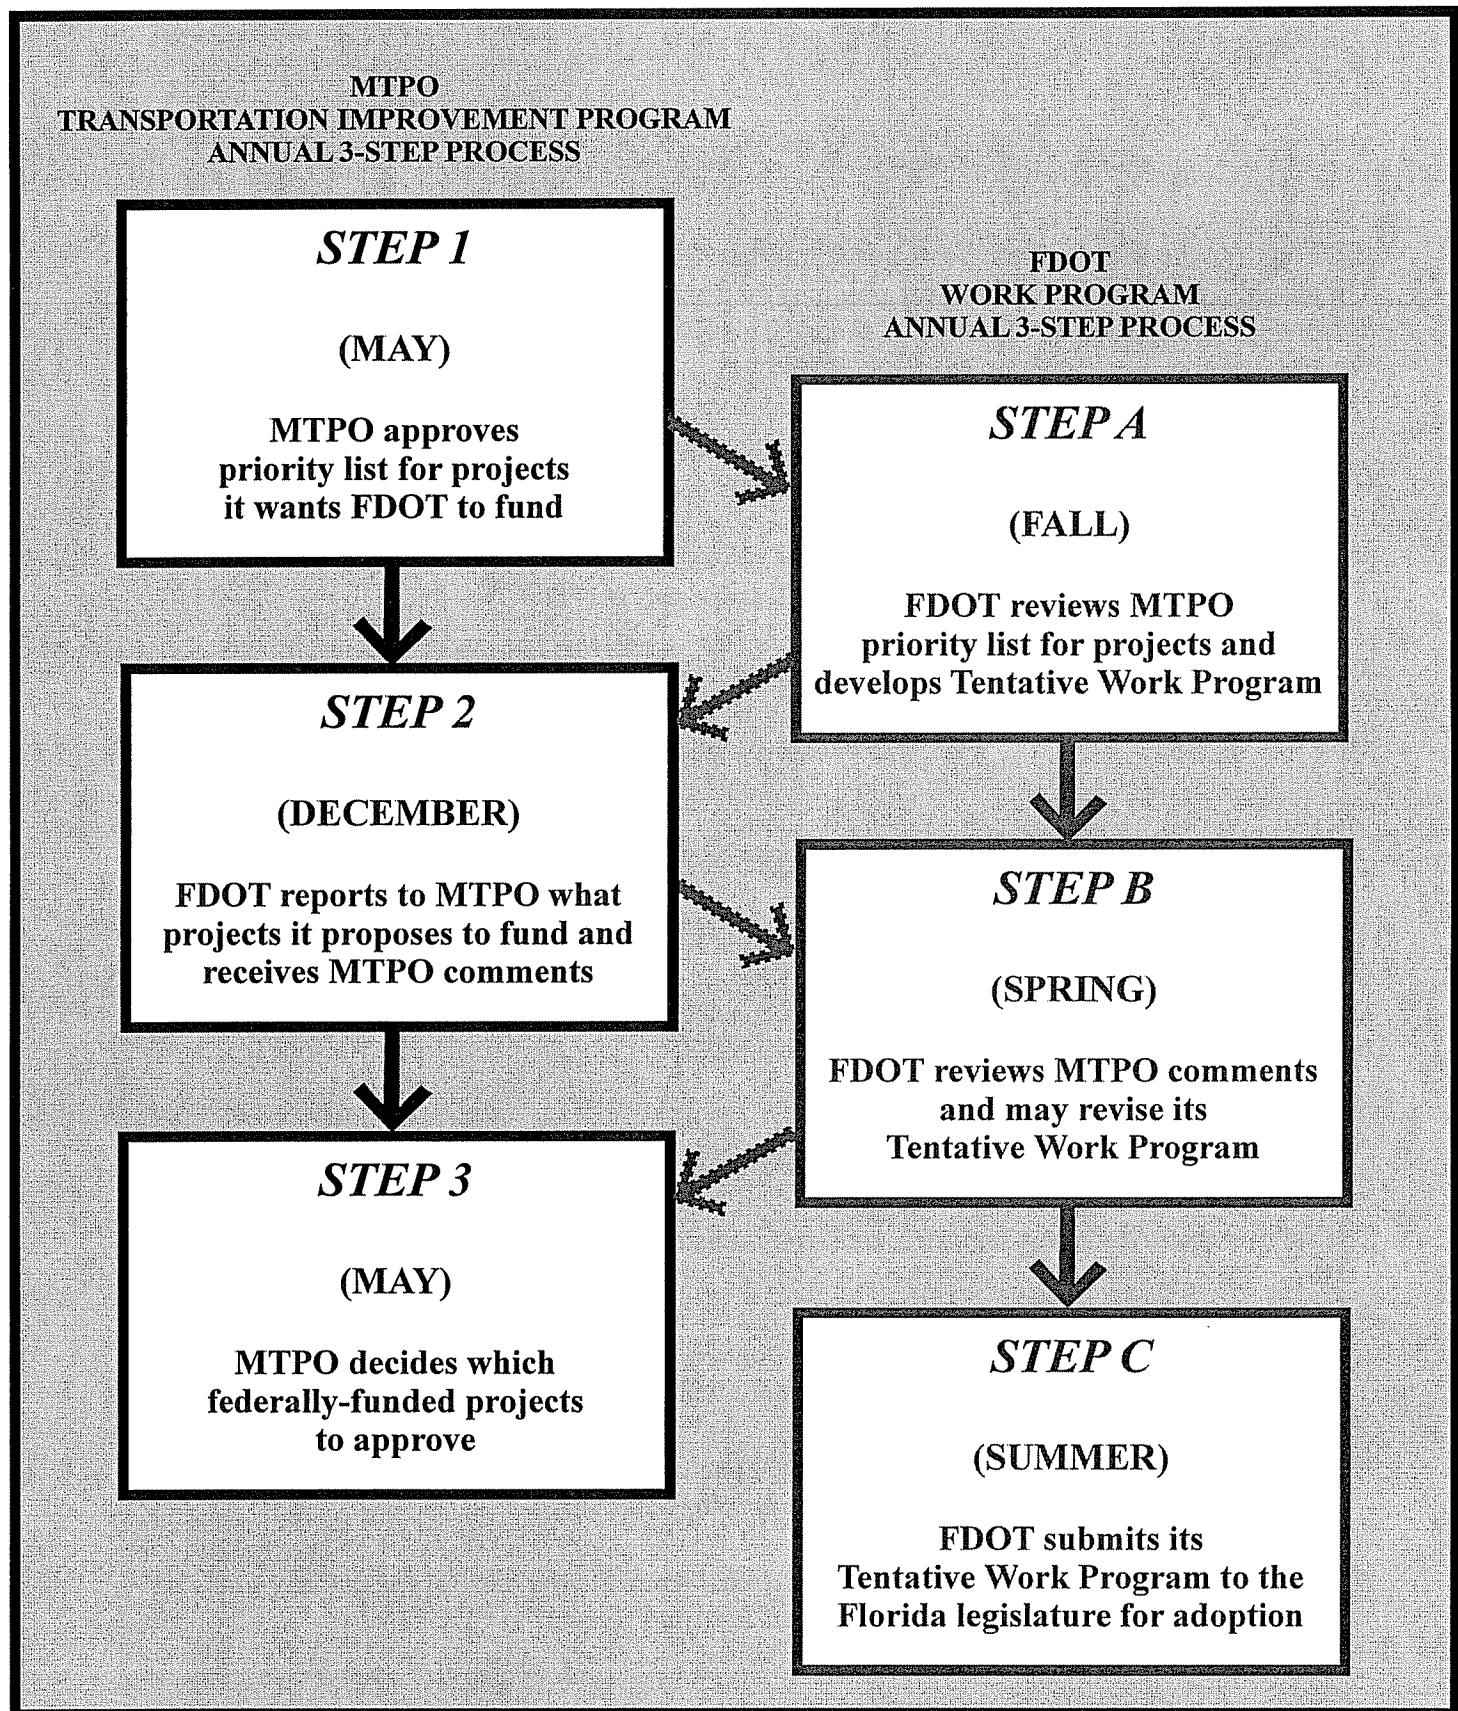

## METHODOLOGY

The following methodology has been used to establish the priorities contained in this report:

- March- draft report distributed to the MTPO Advisory Committees that identifies transportation priorities submitted last year and, of those, which ones were funded;
- May- MTPO Advisory Committees develop recommended transportation priorities for the coming year; and
- May- MTPO approves transportation priorities for the coming year and submits a “List of Priority Projects” to FDOT.

### MTPO CALENDAR

## **DEVELOPMENT**

Section 134 (f) of title 23, United States Code states that, in developing transportation programs, metropolitan planning organizations shall consider the seven areas contained in Appendix A. These areas have been considered in the development of the project priorities contained in this report.

### **TRANSPORTATION SYSTEM MODIFICATIONS SELECTED FROM THE GAINESVILLE METROPOLITAN AREA 2025 TRANSPORTATION PLAN- THE LIVABLE COMMUNITY REINVESTMENT PLAN**

The transportation system modifications that have been identified as priorities from the adopted Livable Community Reinvestment Plan are listed in the Public Transportation Priorities, Surface Transportation Program Fund Priorities and Traffic Operations Priorities project tables.

### **RELATIONSHIP TO THE MANAGEMENT SYSTEMS**

The transportation priorities contained in this report are developed from available information from the management systems required for the Gainesville Metropolitan Area as a result of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). The congestion management system (CMS) for the Gainesville Metropolitan Area was fully operational by October 1, 1997.

### **MTPO URBAN DESIGN POLICIES**

The MTPO has, over the years, adopted various urban design and streetscape policies. These policies have been consolidated into a document entitled "MTPO Urban Design Policy Manual." Therefore, unless otherwise stated within this "List of Priority Projects" document, all priority project recommendations shall be in conformance with the "MTPO Urban Design Policy Manual" document.

### **PUBLIC INVOLVEMENT AND SERVICE EQUITY**

Citizen involvement in the TIP three-step process is promoted through the MTPO's Public Involvement Process which was developed and adopted pursuant to 23 CFR 450.316(b)(1) requirements. The MTPO's Public Involvement Plan describes a process to involve the public, including private transportation operators, in the transportation planning process, including the annual development of the TIP, in accordance with Chapter 339.175(7), Florida Statutes. In addition, the MTPO's Public Involvement Plan includes strategies to address service equity, including outreach to socioeconomic communities that have traditionally been underrepresented in the transportation planning process. The MTPO sponsors workshops and charrettes, as necessary, regarding projects in the TIP.

MTPO staff provides local news media notification of meetings when the List of Priority Projects is scheduled for review and approval by the MTPO and its Advisory Committees, thereby providing citizens an opportunity to participate in the development of the List of Priority Projects. To inform the general public and other interested persons who may want to review and comment on the List of Priority Projects, public notice is also provided through the Clerk of the City of Gainesville, who places meeting notices on City's Community Calendar and in the local newspaper's listing of public meetings of the week.

### **FREIGHT SHIPPERS**

The MTPO maintains a database of freight shippers that serve and/or are based in the Gainesville Metropolitan Area. Correspondence is sent to the freight shippers inviting them to participate in the development of the TIP. Freight shippers are notified of the MTPO meeting dates when the List of Priority Projects and the TIP documents are considered by the MTPO.

### **PUBLIC TRANSPORTATION USERS**

The MTPO coordinates with Regional Transit System (RTS) staff for public involvement in the development of the TIP. The Regional Transit System Advisory Board provides input for transit projects to be included in the List of Priority Projects. In addition, RTS staff conducts transit forums to gather public input. The Alachua County Transportation Disadvantaged Coordinating Board (ACTDCB), which includes public transportation users, provides input for transportation disadvantaged projects to be included in the List of Priority Projects. Each year, MTPO staff solicits input from RTS and ACTDCB for projects to be included in the List of Priority Projects.

### **SAFETY AND SECURITY IN THE TRANSPORTATION PLANNING PROCESS**

The Florida Department of Transportation supports a network of Community Traffic Safety Teams. These Teams are comprised of state and local technical expertise for transportation system management and planning, public safety, including police and fire personnel, and education. In addition to MTPO staff, the Alachua County Traffic Safety Team (ACTST) is comprised of representatives from:

STATE OF FLORIDA	ALACHUA COUNTY	CITY OF GAINESVILLE
Florida Department of Transportation	Alachua County Fire Rescue	Gainesville Fire Rescue
Florida Highway Patrol	Alachua County School Board	Gainesville Police Department
University of Florida (UF) T <sup>2</sup> Center	Alachua County Sheriff's Office	Public Works Department
UF Facilities Planning & Construction	Public Works Department	

The MTPO receives ACTST recommendations for safety-funded projects in the List of Priority Projects. Currently, the focus of transportation system security is on airport facilities.

Note: The MTPO endorses the priorities listed above:

1. provided they do not compete with roadway capacity construction funding typically available from the Surface Transportation Program (STP); and
2. with the understanding that these funds do not come from existing funds that could be used for other projects within the Gainesville Metropolitan Area.

<sup>1</sup> The MTPO prefers that funding for Priority #1 come from Transportation Regional Incentive Program (TRIP) resources before using Surface Transportation Program (STP) funding.

<sup>2</sup> The MTPO requests that funding programmed for lift-equipped van purchases for fiscal years 2010/2011 and 2011/2012 [FIN # 4048331] in the Tentative Work Program be allocated to Priority #1 Traffic Management System.
